ROYAL HAWAIIAN ACADEMY.

Music, Lyric and Dramatic Art-President, His Majesty the King-Directors, Signor Campobello and Prof.

H. Berger. The meeting called in the interest of the Royal Hawaiian Academy of Music. Drama and the Lyric Art, at the Hotel on Friday evening, was organized by the appointment of Prof. H. Berger as chairman, and Mr. Wray Taylor as secretary. His Majesty the King, Princess Liliuokalani, Hon. John O. Dominis, Mrs. J. I. Dowsett, Signor and Mrs. Campobello,

Mr. C. H. White and others were present. Signor Campobello read a paper of some length, defining the objects of the projected enterprise, which have previously been sketched in the prospectus. The address was ordered to be printed and published. The Signor stated that four contributors of one hundred dollars each had subscribed to the prospectus, and several others had promised similar

subscriptions. The meeting adjourned subject to call. Kale, defendant in a prosecution for re-The following is a summary of the fusal to serve under his labor contract

proposed scheme: The object of the projected institution is to train pupils in all branches of music, and especially in the lyric art. Whereas the people of this nation unquestionably show great aptitude and taste for music, vocal and instrumental, they only need proper and careful training to enable them to take their place in the ranks of artists of other nations, Patrons donating one hundred dollars and upwards towards the expenses of establishing, as a permanent institution, this School of Music, will have the right of nominacing a candidate for vocal and dramatic instruction, and such candidate, if considered by the Directors as cossessing the necessary natural talent,

will be instructed free of charge. Private pupils will be received at the Academy. The French and Italian languages will be taught according to the private. Honorary members who pay \$3 per month will be entitled to admission to all entertainments given by the pupils of the Academy. Patrons donating one hundred dollars and upwards held by them. The Humboldt Standard has the following: "A squib is going the rounds of the Eastern papers, that the King (Kalakaua) of the Sandwich Islands, only receives a salary of twenty dollars per month. From a man who spent eleven years of his life in active business in Honolulu, we learn that the allowance made the King and his family, for all purposes, exceeds the salary of the President of this country, which is \$50,000 per year. The King's salary alone is \$45,000 for two years, or \$22,500 per year. Most of our American citizens would be willing to take the position off Kalakaua's hands at half his salary. It is not much of a job to be king over those islands fendants. which contain less than four times the population of Humboldt county. Kalakaua's dress consists of something more than a stovepipe hat and a paper collar. Kalakaua is smart enough to beat the average American sport at a game of "draw poker," and drives a turnout that would make the San Francisco bloods green with jealousy, if he should take a drive with it in Golden Gate Park."

What Advance Money Caused.

A native who was shipped for a whaling vessel undertook on Thursday afternoon to "paint the town red" with his advance money. He called two native women into his abode and set up the beer until they were in jolly mood. His wife arriving on the scene remonstrated with her liege on his conduct, whereupon the lady friends made such a row that ployed in this establishment, and found a competent engraver and in all respects a station for drunkenness, but being fairly terday morning, however, the woman of 61-Im | battery on her.

#### THAT MINERAL FIND.

Pronounced a Variety of Gypsum by

Prof. Lyons of Oahu College. As stated in our news columns a few days ago, a specimen of mineral found near the Insane Asylum was sent by Mr. Hassinger to be assayed. The assayer was Prof. A. B. Lyons, F. C. S., analytical chemist, of Oahn College, who has returned the following report. Gypsum, if found in workable quantities, would be valuable to the agricultural and building interests of the country:

HONOLULU, Mar. 18, 1889.

J. A. Hassinger, Esq., Chief Clerk Department of Interior. DEAR SIR,-Regarding the specimen of described as having been found in digging near the Insane Asylum at Kapalama. I have the honor to report that the crystals are of the mineral selenite. a transparent variety of gypsum or sulphate of calcium. The mineral is of little economic value and the deposit of it is probably inconsiderable in amount. If found in quantity gypsum would, however, form a not unimportant addition to the mineral resources of the Hawaiian Islands, but it is scarcely to be looked for unless it might be in the formations about the salt lake at Moanalua.

Respectfully subscribed, A. B. Lyons.

THE FIRE RECORD.

The Department Called Out Twice. Slight Damage. At 5:30 o'clock Tuesday afternoon the fire alarm was given for a fire on Emma street. It was in a cottage on Mr. Henry F. Poor's premises, which is occupied by Mr. K. Katsura, Japanese lawyer. That gentleman was reading a newspaper in his parlor, and some visiting friends were playing checkers alongside of him. It is thought that one of the players, after lighting a cigarette, threw a live match into the window curtains, up which a flame suddenly ran and set fire to the papered cloth covering the ceiling. The fire tound its way into the attic and showed through the roof, but before the firemen arrived it was completely checked with water from a garden This fact did not prevent the firemen from drenching the house and gar-

den with water. About 3 o'clock Wednesday afternoon a fire started in the house of a Portuguese named John de Gouveia on Punchbowl at the head of Emma street. It caught among some clothing hanging behind a door in the front room, and ran up to the roof inside. An alarm was given but the fire was put out with garden hose before 31. Trustees Bishop estate vs. Kala et | the firemen could get their work in. The origin of the fire is unknown to anybody

who will tell.

The Steamer Kaala. At 10:20 Thursday evening a message by the Mutual Telephone stated that the steamer Kaala was disabled at Kaena Point, this island. She had no steam and was drifting. The steamer Waimanalo was to proceed to the Kaala's relief within a few hours, and, if possible, the tug Eleu would be dispatched on the

same errand. The report that the Kaala was disabled was untrue. She only lay off Waialua, with steam up, until morning on account of fog obscuring the shore lights. The Waimanalo, on the strength of the report, however, left for the Kaala's assistance at 1 o'clock in the morning. Mr. T. R. Lucas, who was out all night on the Kaala and returned to town by her Friday night, describes the weather off Waialua as very thick and stormy. The breakers could be seen from on board roaring the whole breadth of the passage. So high did the sea run that it was all little steamer was in distress.
